

Fire-Ready Forest Bracelet

-  **GREEN** (~12 beads): Living plants - various greens for different species (trees, grasses, shrubs)
-  **BROWN** (~4 beads): Dead or dry vegetation (reduced before burning)
-  **ORANGE** (~2 beads): Prescribed fire (planned, not random)
-  **BLUE** (~5 beads): Land managers monitoring the fire
-  **BLACK** (~5 beads): Fire breaks (roads, rivers, or cleared lines)

This bracelet represents a forest prepared for a prescribed fire. A prescribed fire is a planned fire used by trained professionals to help keep forests healthy. Each bead shows how people, plants, fire breaks, and carefully managed fire work together to support healthy forests and reduce the risk of severe wildfires.

This bracelet represents a forest prepared for a prescribed fire. A prescribed fire is a planned fire used by trained professionals to help keep forests healthy. Each bead shows how people, plants, fire breaks, and carefully managed fire work together to support healthy forests and reduce the risk of severe wildfires.
